HAVE YOUR SAY IN HOW WE SPEND £400,000

Ludlow as one of the key market towns in Shropshire has been allocated £400,000.
Local people will be able to influence decisions about how the money is spent by letting their town council know what they want – please use the form below.
The funding is available for capital projects that will generate income and are sustainable in the long term. Schemes which create employment will have more chance of success, but please remember the money can only be claimed for the capital element of the scheme. Examples you may consider include:

- Encouraging public services to share buildings and save running costs to allow investment in improving the services themselves.
- Enhancing existing markets in partnership with town councils and the private sector.
- Making towns more attractive by building parks, improving street furniture or refurbishing buildings.

Community groups have many opportunities to obtain grant funding from other funding streams. We can help with this – We have acquired over £139,000 this year for Community projects!

Please take this chance to influence the decision making process in Ludlow

FEEDBACK FORM You can also use this form for feedback on any of the Council's services
