

## Project Update

March 2011

### **Linney Riverside Park Phase 1 Bank Erosion Works**

The tendering process for Phase 1 work to prevent further bank erosion at the Linney and maintain the existent flood plain eco-system began in February. Details are available on [www.ludlow.gov.uk](http://www.ludlow.gov.uk) Once the Environment Agency has approved the finalised design, it is expected that work will commence in June. Phase 2 work to install play equipment and recreation facilities will follow, and it is hoped that all works will be completed before the school summer holidays end.
